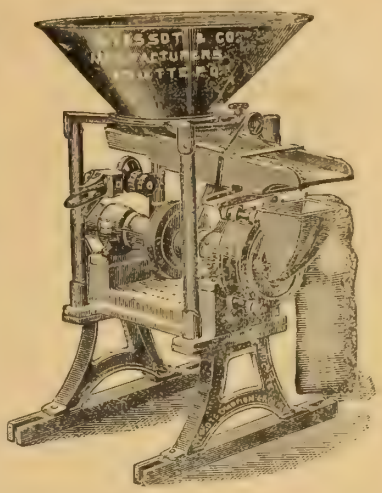
QUEBEC CENTRAL RAILWAY



Running in close connection with the Boston & Maine and Maine Central Railroads forms the direct route for Tourists and Business travel between Quebec and all New England points.

The Champion Grain Grinder

MODEL 99

Is built on sound mechanical and scientific principles, and is the most perfect grain grinder on the market.

It has large bearing surfaces on the main shaft; roller bearings on the pressure device; automatic oilers; the grinding plates are in sections. All this contributes to make the grinder runs mooth and easy, and to give the maximum of work for the power used.

8-inch Champion.

BUILT IN FOUR SIZES.

8-inch Grinder—Capacity from 4 to 20 bushels per hour.
Power required, - 1 to 6 H.P.

10-inch Grinder—Capacity from 20 to 50 bushels per hour.
Power required, - 8 to 10 H.P.

12-inch Grinder—Capacity from 30 to 90 bushels per hour.
Power required, - 15 to 20 H.P.

14-inch Grinder—Capacity from 40 to 150 bushels per hour.
Power required, - 20 to 30 H.P.

We build a special elevator and double bagger for our grinders.

Vessot's Sub-Soil Attachment.

Our Sub-Soiler replaces the Sub-soil plow, and is easily attached to any plow. It increases the draft but very little, and is under the immediate control of the operator.

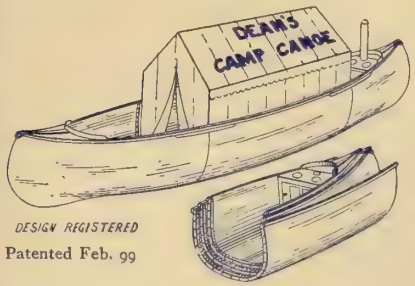
Walter Dean, 1751 Queen St. W. Toronto



A LARGE STOCK OF SECOND HAND BOATS AND CANOES FOR SALE

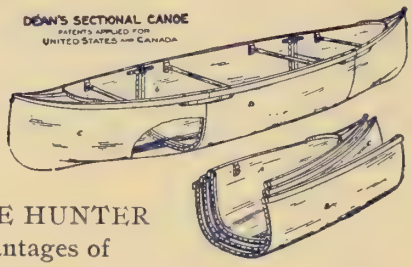
Dean's Canoes

Sectional Camp Canoe.

Built in any size required. Bunks on each side for sleeping on. These Canoes are the only large canoes that can be carried by Freight or Express.

An excellent thing for Muskoka lakes and rivers, and Thousand Islands, in fact any summer resort where you can drop your anchor in some quiet cove or river. Can be paddled, rowed or sailed, and you always have your tent with you. * * A limited numbers to rent.

DESIGN REGISTERED
Patented Feb. 99



Metallic Joint Canoe

The planking on these Canoes is 3-16 of an inch thick, securely fastened on 5-8 half round ribs 1 1-8 inches apart. A metallic strip is run along from end to end, covering the joints on the inside, making them smooth and easily cleaned. This style is built in basswood, cedar, and butternut, sycamore, mahogany or Spanish cedar, and makes a very handsome canoe, but cost a little more. These are the strongest canoes made considering their weight.

Sectional Hunting Canoe . . .

Design Registered.

Patented Feb. 1899

TO THE HUNTER the advantages of this canoe can be readily seen. Bulkheads may be placed between the sections which when bolted together make each section a watertight compartment.

Write for Catalogue.

Two Testimonials.

Walter Dean, 1751 Queen St. West, Toronto.

Dear Sir—Sectional Canoe arrived all right * * * I consider it very convenient, sufficiently strong enough to stand the severest tests, and of great weight carrying possibilities. I confidently recommend it to those going to the Klondike.

Yours truly, WILLIAM OGILVIE.

THE SALVATION ARMY, James and Albert Sts. Toronto, Sept. 23, 98

Mr. Walter Dean. Dear Sir—Your letter of the 14th addressed to Miss Booth, has been handed on to me. I wish to say that I had the ordering of the canoes and sent with the Klondike Expedition as far as Skagway, also have seen all correspondence from our party as well as have interviewed one of the expeditioners. From all information I can gather it is evident that the canoes which you furnished to us were far ahead of any style of boat used on the Yukon and its contributaries. Our party did not portage any of their goods round any of the portages, or dangerous places, but safely, without damaging or even wetting an article contained therein, have shot ever rapid greatly to the surprise of many experienced miners and explorers. The journey from Lake Bennett to Dawson City was made in eleven days. Your canoes had the admiration of every prospector and we are pleased to forward you this recommendation. Believe me, yours sincerely, BRUNO FREDRICH, Brigadier.

The HALLWOOD CASH REGISTER

FACTORY—COLUMBUS, OHIO.

We have a time, money and labor saving system which will inform you at the end of each day

How much you have SOLD FOR CASH.

How much you have sold on CREDIT.

How much and for what you have PAID OUT money.

How much money you have RECEIVED ON ACCOUNT, and from whom.

How much you have sold in each particular department of your business.

How much money you have owing to you, and AN ABSOLUTE SYSTEM FOR HANDLING YOUR CASH.

The only Register that at once appeals to the Business man—gives accurate and complete control of the business—we do practically what others do in theory. If you are at all interested in Cash Registers drop a line to

"You Won't miss 50 Cents but you will miss MEN'S WEAR."

MEN'S WEAR.

For Clothiers, Hatters and Men's Furnishers.

ORDER NOW.

50 Cents Yearly.

"Men's Wear" is published twice each month and each issue consists of at least eighty closely filled pages. Certainly so much matter, equal to about fifteen ordinary sized novels during the year, is not dear at the subscription price of 50 cents a year, and no one who finds a single valuable feature in it need be debarred by the cost from subscribing for it.

We call attention to the large amount of trade news contained in our reports from various cities and states. Notice the departments devoted to Recent Productions, Window Trimming and Advertising. Any one of these features is alone worth the subscription price of the publication.

"Men's Wear" is not only the lowest in price but the best in quality of any paper published in the interests of the clothing, hat and men's furnishing lines. The size adopted is that which is the most convenient for readers. It is easy to handle and convenient in shape to preserve.

You cannot spend 50 cents to better advantage. To-day ideas make money, and "MEN'S WEAR" is full of them.

"YOU WON'T MISS 50 CENTS BUT YOU WILL MISS 'MEN'S WEAR.'"

"ORDER IT NOW."

The ONTARIO MUTUAL LIFE ASSURANCE COMPANY.

The interest earned each year on its Investments exceeds its Death Losses by many thousands.

Mt. St. Bernard Academy
AND
LADIES' COLLEGE,
Antigonish, N.S.

Conducted by the Sisters of the Congregation de Notre Dame. This Congregation is one of the oldest in Canada, having been founded in the year 1656, by the Venerable Marguerite Bourgeois a native of Troyes, France. The foundress accompanied Montreal's first Governor—De Maisonneuve—to the new world on the occasion of his second voyage, 1653.

Mt. St. Bernard is affiliated with St. Francis Xavier College, whose Arts Course it has adopted and carries out. Young ladies who complete the Course are thus qualified for a Degree in Arts, which is recognized by any of the Universities of Canada or the United States.

CURRICULUM.

I. Literary and Scientific—English, Mathematics, Greek, Latin, French, Italian, Physics, Chemistry, Botany, Elocution, Physical Culture, Book-keeping, Shorthand and Type-writing.

II. Music—Pianoforte, Organ, Harp, Mandolin, Guitar, Singing, Theory of Music.

III. Fine Art—Drawing, Crayon, Pastel, Water Colors, Oils, Needlework.

The valuable physical and chemical appafatus belonging to the Laboratory of St. F. X. College is at the disposal of teachers and pupils in illustrating lectures in Physics, Chemistry and Botany.

The beautiful location and surroundings of Mt. St. Bernard College secure for it every sanitary advantage, while tennis courts, croquet lawns and the many beautiful walks in the vicinity of the town afford facility for healthful outdoor exercise.

Mt. St. Bernard is the only Catholic Young Ladies' College in Canada.

ST. JOHN'S, N. F.

Woodburn's Patent Pulverizer

IS ESPECIALLY DESIGNED FOR

PULVERIZING GRANULATED SUGAR

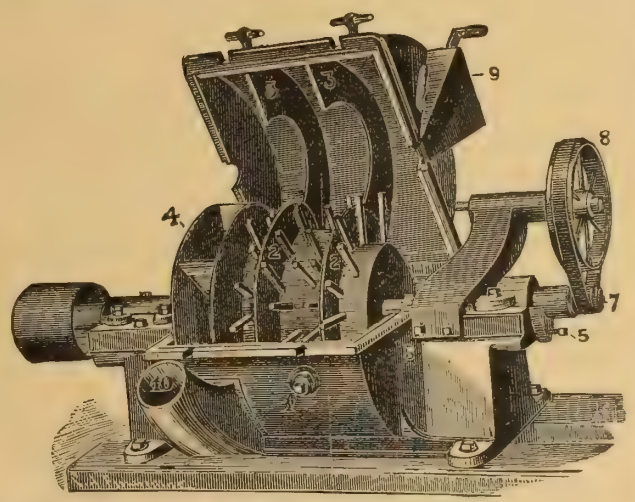
STARCH, CREAM OF TARTAR, ETC.

To an Impalpable Powder

Equally successful on Spices (for Ginger and Cassia it has no equal) Plumbago, Oxide of Iron and many other substances.

Requires no Cleaning, as it never Clogs,

No Sifting or Bolting Machine required,



Requires very little attention.

Qualities which will be appreciated by every Baker and Confectioner or other person who grinds sugar, etc.

IT WILL DO MORE WORK

in a given time than can possibly be done by the old style mills.

The sugar which requires no bolting or sifting is sufficiently fine for the finest lozenges or for iceing.
